Corrections for Volume LXIII

The editor of the BULLETIN wishes to call attention to the following errors in Volume LXIII:

September 7, p. 275, second column: The U.S. note to the Federal Republic of Germany contains an unofficial translation of a German note to the United States; the official translation is printed in the BULLETIN of December 7, p. 712.

September 21, p. 330, second column: The third sentence of the last paragraph should read: "It is simply not accurate to label the whole class of chemical weapons as weapons of mass destruction."
